Celebrating 40 Years of Splash, Smiles, and Safety!

Four decades ago, we jumped into the pool with a simple mission: to teach children not just how to swim, but how to be safe, confident, and lifelong lovers of the water. We are incredibly proud to celebrate our **40th Anniversary Season!** It is amazing to look back at where we started and see how much we've grown. Over the last 40 years, we've had the absolute privilege of watching thousands of children splash through our doors, conquer their fears, master their strokes, and graduate into confident swimmers.

To Our Families: Thank You!

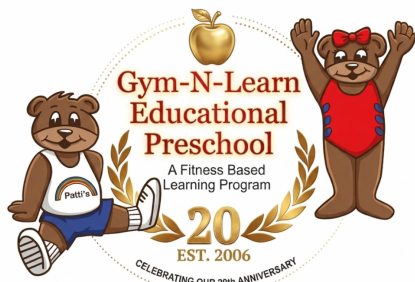

Whether your child is taking their very first splash in our beginner levels or mastering advanced strokes, you are the reason we are still here doing what we love. Thank you for trusting us with your children, for cheering them on from the side of the pool, and for being a part of our family for the last 40 years.

Here's to 40 years of making a difference, and to many more generations of happy, safe swimmers.

Still time to take advantage of our swim lessons this summer. Children ages 14 months-12 years can register for group or private lessons. A new session of lessons begins every Monday! 🥷 The Developmental Benefits of Ninja Classes

If your child loves to climb and jump, they are following a natural developmental instinct. While kids view a Ninja course as a fun, real-life video game, it is actually a powerful tool for physical and mental growth.

Here is what is happening developmentally during a Ninja class:

- **Builds a "Growth Mindset":** In Ninja, nobody conquers an obstacle on the first try. Children learn that missing a landing isn't a failure—it's just a puzzle to solve. This builds emotional resilience that helps them tackle tough challenges at school.
- **Develops Complete Physical Literacy:** Unlike sports with repetitive motions, Ninja requires total-body coordination. It builds functional core strength and teaches vital "fall safety" and spatial awareness, reducing the risk of injuries on the school playground.
- **Sharpens Executive Function:** Navigating a course is an intensive brain workout. Children must focus, look ahead, and plan their movements step-by-step ("*Left foot here, swing there*"), which helps channel high energy into intentional focus.
- **Independence Without Pressure:** Kids compete only against their own past performance. This removes the stress of letting a team down, allowing them to build self-confidence at their own unique pace in a highly supportive environment.

At its core, Ninja takes a child's natural desire for adventure and shapes it into a foundation for physical, mental, and social growth!

🦖 "Dino-Mite" Turkey & Cheese Sushi Rolls

Kids love anything bite-sized. This twists a standard turkey sandwich into fun, shareable "sushi" wheels.

- **What you need:** Soft flour tortillas, sliced turkey breast, cheddar cheese slices, and mild cream cheese (or avocado spread).
- **How to make it:**

1. Lay the tortilla flat and spread a thin layer of cream cheese all the way to the edges (this acts as your "glue").
 2. Layer the turkey and cheese on top.
 3. Roll it up tightly into a log, then slice it into 1-inch "sushi" rolls.
- **Why it wins in July: Zero cooking required, and it's perfect for packing up for a picnic or eating poolside.**
